## Controlled Magnetics Expands into New Facility

*August 15, 2003*

*Brighton, MI - In an effort to keep ahead of a growing demand for their custom magnetics products, Controlled Magnetics, Inc. moved to a larger facility in Brighton, MI. The new factory layout improves production flow and materials handling efficiency. Mike Jagiela, president, said the new facility offers approximately 33% more space and enables them to support continued growth in target markets.*

*Controlled Magnetics designs and manufactures custom inductors and transformers for power electronics, robotics, industrial controls, rail & transit, medical equipment, food processing equipment and other industries. They continue to expand their customer base by achieving their customer objectives for quality, on-time delivery and overall value.*
